

I believe these keys in particular: Team Up, Make a Plan, and Be Engaged- will probably give me the most trouble. I am the kind of person that likes to shoulder a burden all by myself and I try not to bother other people with my issues. So, things like collaborating as well as advisement and the like don't come easy for me. Furthermore, time management can be difficult as there are instances where I focus too much on a singular aspect or topic to the detriment of other things. I believe setting a regimented schedule and adhering to said schedule as well as consistently being proactive in groups and amenities offered during boot camp will build good habits and confidence.
